Sofas

Ben Whistler sofas are all individually hand made in London to customer specifications. This means we are able to offer the service of Customers Own Material on all of our ranges, and still achieve short lead times for time critical projects.

Standard Build & Luxury Build

All Ben Whistler sofas use hardwood frames that have been manufactured by skilled and proven framemakers, and are glued, screwed and dowelled to ensure longevity and solidity. The sofas are built using traditional techniques, and great attention is paid to hand cutting and pattern matching to ensure the finest tailoring. As standard we use box springs and feather & down filling, as appropriate to the piece.

For the ultimate in comfort the "Luxury Build" takes the product one stage further. This level of finishes employs hand springing bases and backs, down cushions, hand stitched front edges and extra finishing layers under your face fabric (where appropriate for the piece) for the best in English hand-built furniture.

DELIVERIES & INSTALLATION

Delivery can be made by arrangement with Ben Whistler for the London area. For standard deliveries this is charged at £45 per hour. Standard delivery is to the location kerbside, but installation can also be arranged by negotiation. Please note the Access terms below.

TERMS AND CONDITIONS:

Payment

As standard all orders require 100% payment with order.

Title of Goods

Title to all goods remains with Ben Whistler Ltd until payment has been made in full.

Access

Where access is a problem, sofas and armchairs can be made with detachable arms, or with detachable arms and legs Please note that ensuring that there is sufficient access to the premises is the purchaser's responsibility.

Fire Retardancy

All the materials used in the construction of our furniture are in accordance with The Furniture and Furnishings Regulations 1988. All foams, fillings and composites have been tested by our suppliers to ensure compliance with the relevant, ignitability test.

All fabrics to be used must also meet the Fire Retardancy regulations. The only exception being where a fabric passes the Cigarette Test and has a composition of at least 75% natural fibre, but does not pass the Match Test. These fabrics can be used over a Schedule 3 Inter-liner.

See Additional Options for prices for FR Interliners, or call for details.

Many fabric houses will be happy to provide the fabric as flameproof for a marginal extra cost.

Colours

Whilst every effort has been made to keep the colours in the brochure photographs true to the originals, there will inevitably be some degree of variation. We will happily send swatches of wood stains and leather out on request.

Supply of Material

All items being supplied by you for the finished piece must arrive with us at least three weeks before the delivery date. If there is a delay in supply then delivery dates will be adjusted to reflect this.
